- **livestock software companies**
- **NGOs with livestock related activities**

NETWORK DIGITAL LIVESTOCK

Carsten Gieseler
CEO And Co-Founder of fodjan
Network Digital Livestock Team

WHY THE DIGITAL LIVESTOCK BRANCH NEEDS A NETWORK

We need to focus on digital solutions and trends in livestock farming world-wide, because:

- The **POTENTIAL OF USING DATA** on animal farms is immense
- **CONNECTED AND INTELLIGENT SOLUTIONS** support the competitiveness of our farmers
- **SUSTAINABILITY AND ANIMAL WELFARE** are already increasingly in demand

Let's work on that together because the future of agriculture starts from today.

NDL online : Showing your expertise

Impulses for all:

Free whitepapers & blog articles made with NDL members & externals

Free online webinars and workshops for agribusiness leaders

Presence for members:

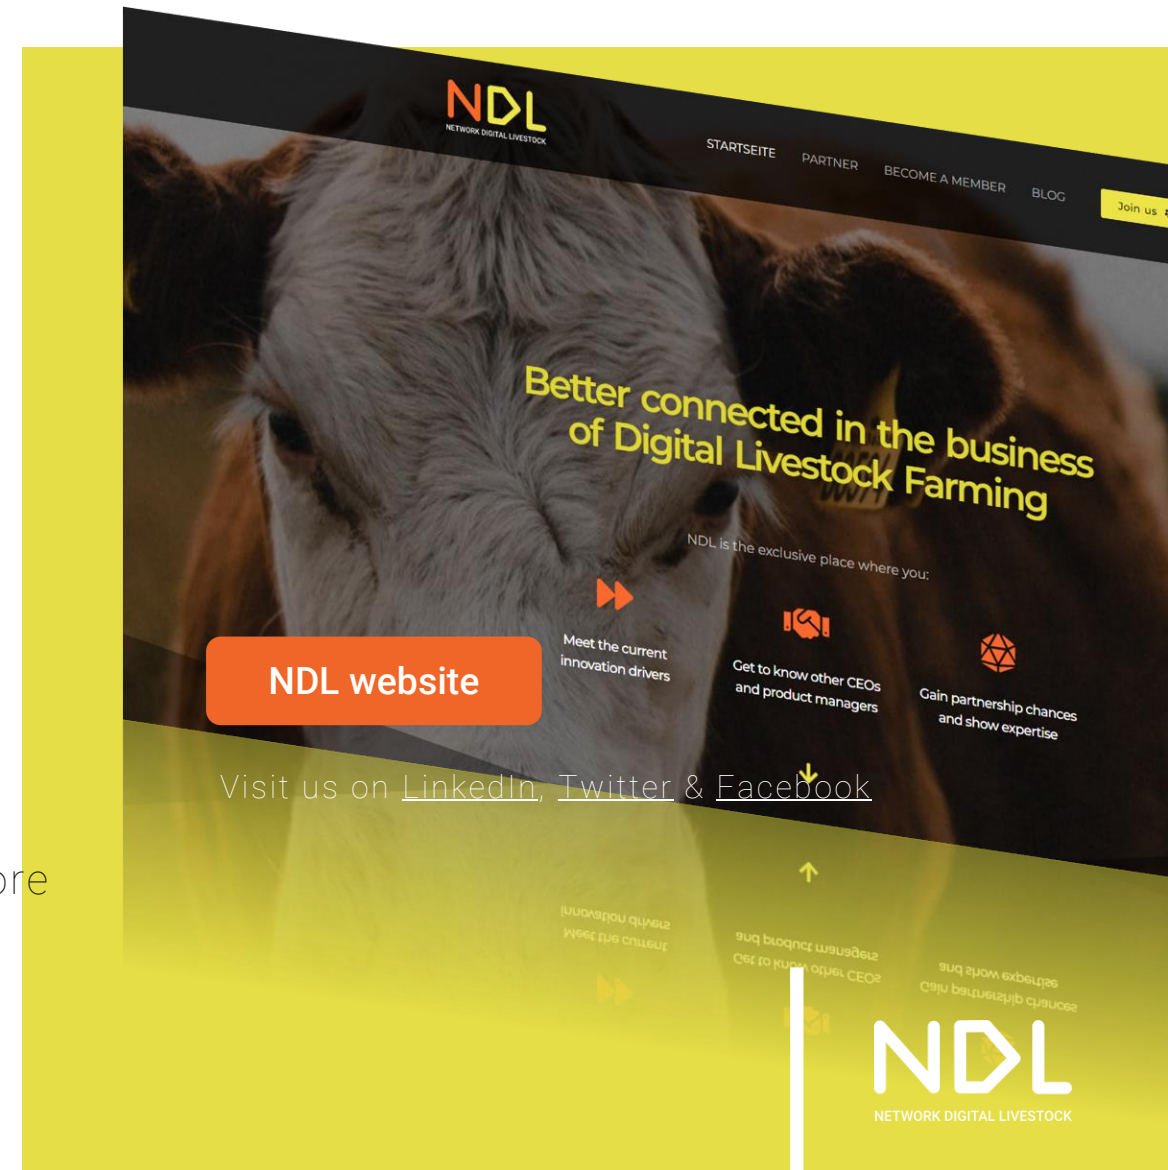

Hosting webinars, pitches and workshops

Be seen as NDL partner with your news, logo and more

Internal workshops with the NDL partners

NDL offline : The real benefit of NDL

NDL on tour Road Trip

In a small exclusive group of NDL members and external friends we go on a 3-days trip with on-farm visits, talks and a lot of networking activity.

NDL Meet Up Conference

Once a year we meet at our own little conference and pre-event night to update each other, give new impulses and – of course – network.

NDL at fairs & conferences

At big European fairs like EuroTier, Agritechnica, Digital Farming Conference & other we are e.g. on stage for panel discussions with our members & friends.

Members are involved for free in this events or get great discounts.

NDL^{HUB} : Get things moving with NDL

NDL Hub - a community for actively building interfaces and data connections

Together we already bring a lot of deciders in agribusiness and many customer farms to the table to power up digitization processes for all e.g. with interface partners.

NDL Hub workshops – we help you easily finding the next steps in digitization

Let's have an online meeting to check how the network or external partners can help you in your next digitization steps and connect you to the people you need.

And if we can't help, we know somebody who can, that's what a network is made for 😊

How **you** can be part of **NDL**.
